- Health literacy awareness training will be offered in Bristol on Wednesday December 5th. Open to anyone who would like to learn more about this important and developing role in which we are involved. There will be an expectation that you will use the health literacy awareness skills developed to work with local partners, review signage in your service and supporting colleagues to have health-literacy friendly conversations and use appropriate range of resources. If interested contact Sue Robertson.

Marketing materials fro BMJ Best Practice - If you require marketing materials or have events etc where you would like assistance in promoting BMJ Best Practice, then please contact Louise Parkin - lparkin@bmj.com

BMJ Best Practice - OpenURLs support (to enable full text access) and referrer-base access (to get BP access via your intranet without having to log in via OpenAthens): BMJ Best Practice has provided the following information regarding OpenURLs support (to enable full text access) and referrer-base access (to get BP access via your intranet without having to log in via OpenAthens)

To be able to link to full text via OpenURL/Link resolver, we need the following information:

- OpenUrl Prefix: this is the OpenURL/Link Resolver URL the customer wishes to be added.
- OpenUrl Label Text: this is optional, if the customer wishes for a specific short text to be displayed instead of the link.
- OpenUrl Logo Location: this is also optional, if the customer wishes for a logo to be displayed as their link rather than text. The customer will need to provide a hosted link for this image.

To set up referrer-based access, please provide the following information:

- The URL of the intranet site page from where the link to BP would be added
- If you are using other access methods such as EZproxy via the intranet, then also send what the proxy URL link and the proxy IP if you have this.

Building Online Communities of Practice

http://www.swoopanalytics.com/building-online-communities-of-practice/

Communities of Practice, or CoP, are a centrepiece of Knowledge Management programs world-wide. But it is vital these groups are not formed purely because it is easy to do so. They must be generating
value, be sustainable and align with an organisation’s core competencies. This article continues the series on group types introduced in our "Getting the Best out of Online Groups at Work" post.
