Quality Improvement Outcomes

Three things that may be of interest to you as we gear up for the new Quality Improvement Outcomes process.

- Check-out the tools, models, training and case-studies on our Libguide – link via Resources – Quality Improvement Subject Guide or https://buckshealthcare.nhs.libguides.com/qihee/docs
- 5th March StandS face-to-face meeting: Applying quality improvement approaches to literature search services
- Introductory webinar to Quality Improvement recording https://southlks.libguides.com/presentations/home

Publicity Champions Group – a national group is working at the moment to create publicity and marketing copy. The publicity created will be customisable locally but will drive up the use of products and services – a do once and share approach. Everything will be branded with the logo shown. The logo will then become recognisable across England but will also allow space for you to add your own service name.

If you want to know more, please contact Helen Muggleston-Dahlke, Chloe George or Sue Robertson.

Updated Literature Search Protocols for Researchers

The Literature Search Process: a guidance for NHS Researchers is a checklist of suggested search techniques and sources of healthcare evidence, emerging research and grey literature to support healthcare researchers undertaking in depth literature searches.

The protocols have just been updated to include newer information sources such as Epistemonikos and an expanded list of subject specific resources which signposts to some of the lesser known healthcare databases (Appendix 2).

Download the latest version from the Knowledge for Healthcare Learning Zone https://kfh.libraryservices.nhs.uk/learning-zone/specialist-and-technical-skills/advanced-and-basic-searching/

The resource is developed and maintained by healthcare librarians in Thames Valley, Wessex and South West. Please send any questions or suggestions to Sarah Lewis, Library and Knowledge Services Manager, Buckinghamshire Healthcare NHS Trust

Dissemination is dead, so do this instead. Improving the supply of good evidence won't automatically translate into meaningful changes in policy design and delivery. Kuranda Morgan shares six evidence-based mechanisms that can help improve its uptake. https://www.alliance4usefulevidence.org/dissemination-is-dead-so-do-this-instead/
